LEG BROKEN WHEN TRAIN BUMPS

Indian Woman Has Peculiar Accident in Box Car Near Cutter

S. J. 18, an Apache squaw, sustained a broken leg at Cutter yesterday afternoon, while stealing a ride on a freight car, loaded with steel rails. The woman was brought to this city and taken to the county hospital, where the fracture was reduced. Her injuries are not considered dangerous.

The squaw, according to reports from the valley, secreted herself in an open box car, loaded with steel rails. While the train was being made up, the car was bumped rather violently, causing the steel to shift. The squaw was caught between the rails and the end of the car, fracturing the right leg.

The train was in charge of Conductor Andy Williams. The train crew was unaware of the woman's presence in the dangerous position, it is said, and is not blamed for the accident.

The New Grays

Unusually Tasteful Effects For Men's Spring Wear

The New Grays will appeal to men of good taste—who want smart, spring-like clothes that are at once handsome and servicable in wear.

Gray is the shade especially suited to this section. It's a "cool" color and doesn't show the dust.

And gray is the most fashionable tone in Men's Clothes for Spring 1910. Fashion and utility are thus at one.

Our New Grays are soft, pleasing fabrics in a wide variety of shades, from light to dark. They're made up very smartly, with a tailoring thoroughness not put into ordinary ready-to-wear.

As a result, they keep their shape—after months of service they are still the smart-looking, handsome suits they were when you first put them on.

Our method of fitting Hirsch-Wickwire and Society Clothes is as distinctive as the garments themselves.

Suits in the New Grays, and many other handsome new effects, \$20, \$25, \$30 and upward.

We can show only a few garments in our windows. Come inside and see the whole assortment.
